

2007-08 STUDENT ACCESS TO COURSE EVALUATIONS

- ☞ Students may review their evaluations at the departmental offices listed below.
- ☞ Faculty in basic science departments do not prepare written evaluations for required courses of the first two years of the curriculum except Psychiatry and Physical Diagnosis.
- ☞ Most clerkships of the Major Clinical Year and all fourth year electives (clinical and research programs) do have written evaluations.
- ☞ Evaluations of electives taken at affiliated hospitals are filed in departmental offices at the Medical Center.

Reading Your MCY Evaluations

ALL MCY evaluations may be read in the individual clerkship's departments (contact information is attached in this packet) or here in the Office of Student Affairs (P&S3-401).

NB: Otolaryngology and Ophthalmology DO NOT submit evaluations. They only give a final grade of P at the end of the year.

Even though you may read your evaluation throughout the course of the year, your MCY grade will NOT appear on your transcript until the summer following completion of your MCY. Course directors enter all grades at one time only.
