

Columbia-Presbyterian Eastside Radiology

is pleased to announce the acquisition
of the **GE Lightspeed VCT**

The **best** images...

The **most** information...

In the **shortest** amount of time!

- Higher resolution images
- Utilizes volume coverage and thin slice imaging concurrently
- Increases diagnostic value in cardiac, neuro, and pediatric applications
- Able to freeze motion in lung and cardiac exams for better images with fewer artifacts
- Image smaller structures and see greater detail
- Dramatically reduced acquisition times
- Lower patient dose
- Shorter breath-hold for patients
- Examine larger patients successfully

Our radiologists are always available to discuss a specific case with you.
You may request a phone consultation by calling 212-326-8517.

Reminder: All patients must present a prescription or written order from their referring physician.

For more information or to schedule an appointment,
please call (212) 326-5551 or 5552.
