

Computer Sciences Corporation

Global Health Solutions Associate Consultant Job Description

Computer Sciences Corporation, CSC, was founded in 1959. We have approximately 90,000 employees and reported revenue of \$14 billion. CSC provides innovative solutions for customers around the world by applying leading technologies and CSC's own advanced capabilities. These include management consulting, systems design and integration; IT and business process outsourcing; applications software development; and Web and application hosting.

The position we are looking to fill is with CSC's Global Health Solutions Practice. It is globally organized to serve all aspects of the healthcare industry - provider, payor and supplier (pharmaceutical, biotech and distributors) in both the commercial and public health sectors. Through a broad range of capabilities, CSC offers consulting and outsourcing solutions that radically simplify the administrative and patient care process, create customized and accessible patient information to create loyal consumers, improve research productivity and speed to market on new discoveries, reduce medical errors and improvement of clinical outcomes.

Our customers include many of the nation's top managed care and indemnity organizations, as well as many of the country's most respected hospital systems, academic medical centers, community hospitals, group practices, medical device, pharmaceutical and industry associations. CSC is uniquely positioned to provide integrated solutions to standard-setting clients in all segments of the industry and we are committed to leveraging our healthcare focus to provide our customers with a suite of solutions unmatched in the industry. www.csc.com
